

Legitimate Treasure Hub (TPP)

The Passive Prosperity Project

A grassroots digital economy built on real assets, real trade, and multilevel rewards — powered by the \$Treasure Token.

🔍 Overview

Legitimate Treasure Hub (TPP) is a wealth-building ecosystem designed to help everyday people build passive income through **real estate**, **telecom**, **agriculture**, **foodstuff vending**, and **mobile money** services. The platform is powered by the **\$Treasure Token**, enabling anyone to earn through **20-level referral rewards**, real-world business activity, and token-backed ownership.

Initial Token Offering (ITO)

TPP's funding starts with a **4-stage ITO** that gives massive earning potential to early adopters.

Stage	Token Price (USDT)	ROI at Maturity
Stage 1	\$0.0001	50,000%
Stage 2	\$0.001	5,000%
Stage 3	\$0.01	500%
Stage 4	\$0.1	100%

Minimum ROI guaranteed: 100%

You can also **join for free**, refer others, and **earn \$Treasure Token commissions up to 20 levels deep**.

Platform Sectors

• Real Estate

- Tokenized ownership of rentals, land, farm estates
- Building material depots integrated with local construction
- Revenue shared with token holders and project contributors

• Telecom

- Recharge card/data sales via grassroots vendor network
- State → LGA → Community → Neighborhood coordinators
- Vendors get tools, microloans, and real-time commissions

- **Foodstuff Vending**

- Staples like rice, garri, oil, yam sold daily
- Vendors earn per sale and from referral activity
- Food chain linked to agro supply side

- **Agriculture**

- Co-op farms, livestock, produce markets
- Farm estate model tied to real estate & token sharing
- Agro-processing and distribution hubs

- **Mobile Money**

- Wallets for earning, sending, and cashing out \$Treasure
- POS agents earn from bill payments, top-ups, and referrals
- Enables full platform circular economy

Income Structure

All sectors operate under a **unified 20-level commission system**.

Every activity — from airtime purchase to food sale, rent, or wallet use — generates **passive income for uplines**.

- Multisector reward sharing
- Activity-based token payouts
- Vendor bonuses + referral multipliers
- Coordinator overrides per region

Security Circle (Microloan Trust Model)

Microloan access is protected by a **Security Circle — a social guarantee model**:

- Borrowers are vouched for by 3–5 uplines
- Guarantors earn trust credits and unlock deeper rewards
- Defaulted loans trigger circle accountability
- Ensures healthy, scalable community lending

Roadmap

Phase 1: ITO/ICO Launch

- \$Treasure Token sale in 4 stages
- Fund platform dev, real estate seed, vendor onboarding

Phase 2: Telecom Vendor Rollout

- Equip and deploy recharge vendors nationwide
- Launch print machines, apps, and referral system

Phase 3: Foodstuff & Agriculture

- Enable food vending + farmer vendor model
- Deploy logistics and supply framework

Phase 4: Real Estate & Farm Estates

- Develop first housing + farm tokenized estates
- Launch land rental and housing tokens

Phase 5: Mobile Money & Agent Wallet

- Launch the TPP Wallet
- POS system for everyday financial services
- Earnings tracked and withdrawn in \$Treasure

Final Words

Legitimate Treasure Hub (TPP) isn't just another token project.

It's a **people-powered prosperity engine** backed by real business, real products, and real ownership.

Whether you're vending airtime, referring a friend, or co-owning a building — you're building your future.

□ Start early.

🌐 Grow your network.

💰 Watch your income multiply.

The Passive Prosperity Project — from trade to land, from token to legacy.
